

**European Parliament Joint Motion for a Resolution on the humanitarian situation in Yemen (2016/2515(RSP))**

*Place, date*

Dear President XXXXX,  
Dear XXXXX

The undersigned organisations welcome the positive stand taken by the European Parliament on the humanitarian situation in Yemen, and in particular its Joint Motion for a Resolution (JMR)<sup>1</sup> and the related amendment<sup>2</sup> scheduled for plenary vote on 25 February.

We commend the Parliament for drawing attention to the unfolding humanitarian catastrophe and the serious breaches of international humanitarian and human rights law being carried out by all parties to the conflict. We note and agree with the assertion that EU Member States still transferring arms to Saudi Arabia are clearly breaching EU Common Position 2008/944/CFSP on arms exports control, and the call for a fully independent investigation into all allegations of abuse, torture, targeted killing of civilians and other violations of international human rights law and international humanitarian law. We note that transfers of arms that might be used in the conflict in Yemen are also in breach of the Arms Trade Treaty (to which 26 EU Member States are party), as concluded by the recent legal opinion of Matrix Chambers.<sup>3</sup>

We support all efforts by the European Parliament to work towards and encourage others to work towards a peaceful resolution to the conflict, including through for example the recent Parliamentary delegation to Saudi Arabia and Qatar.<sup>4</sup>

In this context and in light of the overwhelming evidence of the extent of international humanitarian and human rights law violations, it is clear that EU Member States should not be supplying any controlled items that might be used in the Yemen conflict.

We therefore congratulate the European Parliament and its MEPs on the steps being taken in support of the Yemeni population and international law, and look forward to the vote on both the JMR and the related amendment on 25 February.

Yours sincerely,

---

<sup>1</sup> 2016/2515(RSP).
